Subject Index

Volume 4, 1989

Abrasion arthroplasty
and failed upper tibial osteotomy, S45
Acetabular component
cementless, migration of, 245
dissociation of metal-backed, 39
in vitro fixation of, 201
Acetabular protrusio
three-dimensional angio-computed tomography in, 353
radiographic measurements in, 347
Alignment
in total knee arthroplasty, S55
Alumina
bone affinity to in osteoporosis, 257
Analgesia
morphine in total knee arthroplasty, 157
Anchorage systems
for cementless tibial components, 223
Angiography
three-dimensional in hip arthroplasty, 353
Angular deformity
bone grafting for in knee arthroplasty, 151
hip arthroplasty after femoral osteotomy, 79
Ankylosed knee
arthroplasty for, 1
Antibiotic cement
reimplantation of infected hip arthroplasties, 263
Arterial injury
iliac arteriovenous fistula and hip arthroplasty, 281
Arthritis
basal joint, 65
preconditioned arthritic hip model, 193
rheumatoid
elbow arthroplasty in, 31
shoulder arthroplasty in, 91, 105
thumb carpometacarpal, 65
and unicompartmental knee arthroplasty, S1

Antiinflammatory drugs
in heterotopic bone formation following shoulder arthroplasty, 99
Arthroscopy
in diagnosis of polyethylene fracture of patellar component, S19
management of patellar clunk syndrome, 179

Basal joint arthroplasty
for arthritis, 65
Blood loss
reduction in hip arthroplasty with Colgen, 253
Blood supply
to patella, S75
Bone
affinity to hydroxyapatite and alumina in osteoporosis, 257
cement
centrifugation systems for porosity reduction, 15
micromotion and, 303
grafting
in knee arthroplasty, 371
in reconstructive joint arthroplasty, 285
heterotopic formation
following hip arthroplasty, 125, 319
following shoulder arthroplasty, 99

Cardiac arrest
and hydrogen peroxide use, 297
Cement
antibiotic, and reimplantation of hip arthroplasties, 263
bone grafting in reconstructive joint arthroplasty, 285
press-fit femoral stems and fat embolism, 133
Cementing techniques
intermedullary plugs in hip arthroplasty, 139
Cementless arthroplasty
acetabular component migration, 245
blood loss reduction with Colgen, 253

Articles beginning on a page number preceded by the letter *S* appear in the supplemental issue.

Cementless arthroplasty (*Continued*)
hip
comparison with cemented, 327
proximal femoral strain analysis, 335
knee
fixation rigidity, 21
stability and anchorage considerations, 223
Centrifugation
systems for reducing porosity of Simplex P bone cement, 15
Christiansen total hip arthroplasty, 207
Colgen
and blood loss reduction in hip arthroplasty, 253
Colitis
radiation-induced and hip arthroplasty, 87
Compartmental arthroplasty
of knee, S49
Computed tomography
in hip arthroplasty, 271
three-dimensional, 353
Cruciate condylar knee prosthesis
long-term survival analysis, 293

Delrin
and Christiansen total knee, 207
Denervation
bone affinity to hydroxylapatite and alumina in osteoporosis, 257

Elbow arthroplasty
nonconstrained, in rheumatoid arthritis, 31
stress distribution in ulna following, 163

Fat embolism syndrome
and cementless acetabular press-fit components, 133
Fatigue life
centrifugation systems for reducing porosity of Simplex P bone cement, 15
Femur
anatomy of and three-dimensional magnetic resonance imaging, 361
bone strain and collarless stem stiffness, 173
cemented press-fit stems and fat embolism, 133
component loosening in D-80 total hip arthroplasty, 55
extraction of broken stems, 183
osteotomy, hip arthroplasty following, 79
postoperative fracture around uncemented porous-coated component, 187
proximal fractures and hip arthroplasty, 115
proximal strain analysis, 335
supracondylar fracture, 289
Fistula
arteriovenous iliac, and total hip arthroplasty, 281

Hastings hip
in osteoarthritis, 143
Heterotopic bone formation
and hip arthroplasty, 125, 319
and shoulder arthroplasty, 99
Hip arthroplasty
biologic response to hydroxylapatite coating, 43
and biplanar femoral osteotomy, 79
blood loss reduction with Colgen, 253
cemented and cementless compared, 327
cementless acetabular component migration, 245
collarless stem stiffness and femoral bone strain, 173
computed tomographic techniques and, 271
extraction of broken femoral stems, 183
failed Christiansen total hip arthroplasty, 207
fat embolism and press-fit femoral stem cementing, 133
femoral loosening in DF-80 arthroplasty, 55
Hastings hip in osteoarthritis, 143
heterotopic bone formation and, 319
iliac arteriovenous fistula following, 281
infection associated with radiation-induced colitis, 87
infected, reimplantation without antiobiotic cement, 263
intramedullary plugs in, 139
in vitro fixation of porous-coated acetabular components, 201
magnetic resonance image correlation in necrosis, 7
metal-backed polyethylene acetabular component dissociation, 39
nonoperative treatment of ipsilateral femoral fracture, 187
preconditioned arthritic hip model, 193
proximal femur fracture treatment and, 115
proximal femur strain analysis, 335
pulmonary embolism prevention in, 217
radiographic measurements of protrusio acetabuli, 347
revision and primary, clinical results, 297
survival analysis of failure pattern after revision, 311
three-dimensional angio-computed tomography in, 353
Histomorphometry
magnetic resonance imaging correlation with histology in hip necrosis, 7
Humeral components
retroversion of humeral prosthesis in shoulder arthroplasty, 277
Hydrogen peroxide
and cardiac arrest, 369
Hydroxylapatite coating
biological response to, 43
bone affinity to in osteoporosis, 257

Iliac artery fistula
and hip arthroplasty, 281
Infected hip arthroplasty
from radiation-induced colitis, 87
reimplantation without antibiotic cement, 263

Intermedullary plugs
in hip arthroplasty, 139
Intermedullary pressure
and polymethylmethacrylate, 133
Irradiation
and heterotropic bone formation prevention in hip arthroplasty, 319
radiation-induced colitis, 87

Knee arthroplasty
abrasian arthroplasty and failed tibial osteotomy, S45
alignment of, S55
arthroscopic diagnosis of patellar component fracture, S19
arthroscopic management of patellar clump syndrome, 179
autogenous bone grafting for angular deformity, 151
epidural morphine use in, 157
fenestrated metal backing fracture of tibial component, 27
fixation rigidity with uncemented tibial implants, 21
following tibial osteotomy, S11
major wound necrosis following, S23
micromotion correlation with bone-cement interface histology, 303
nonresurfaced patella in, S81
Oxford meniscal knee, 231
patellar fractures in, S63
patellofemoral joint and design considerations, S69
stability and anchorage consideration for tibial components, 223
for stiff or ankylosed knee, 1
supracondylar fracture of the femur following, 289
survival analysis of posterior cruciate condylar arthroplasty, 293
tack fixation of tibial bone grafts, 371
tissue growth into porous components, S33
unicompartmental, S1
unicondylar, S1

Lung dysfunction
and polymethylmethacrylate, 133
Lung embolism
prevention in total hip arthroplasty, 217

Magnetic resonance imaging
correlation with histology in avascular hip necrosis, 7
three-dimensional, and proximal femur anatomy, 361
Mechanical axis
alignment of knee arthroplasties and, S55
Metal-backed component
acetabular, dissociation of, 39
tibial knee, fracture, 27
Micromotion
correlation with histology of bone-cement interface, 303
Morphine
use in knee arthroplasty, 157
Muscle strength
hip, and heterotopic bone formation, 125

Necrosis, avascular
in hip, 7
Nonconstrained arthroplasty
elbow, 31

Osteoarthritis
and fracture of patellar component, S19
Hastings hip in, 143
and hypertropic bone formation, 125
knee arthroplasty following osteotomy for, S11
unicompartmental, S1
Osteoporosis
bone affinity to hydroxylapatite and alumina in, 257
Osteotomy
abrasion arthroplasty and failed tibial osteotomy, S45
hip arthroplasty after femoral osteotomy, 79
knee arthroplasty following, S11
Oxford meniscal knee, 231

Patella
blood supply to, S75
fractures, S19, S63
nonresurfaced, S81
Patellar clunk syndrome, 179
Patellofemoral joint
design considerations in knee prosthesis, S69
PCA femoral implants
proximal femoral strain analysis using, 335
Photoelasticity
in proximal femoral strain analysis, 335
PMMA cement, 139
Polyethylene failure
dissociation of metal-backed acetabular component, 39
Polymethylmethacrylate
and fat embolism syndrome, 133
Porous bone ingrowth
rigidity in uncemented tibial knee implants, 21
Porosity
centrifugation systems for reducing Simplex P bone cement, 15
Porous-coated implants
biological response to hydroxylapatite coating, 43
heterotropic bone formation, 319
in vitro fixation of hip components, 201
postoperative femoral fracture, 187
tissue growth into, S33
Prosthesis design
patellofemoral joint considerations in knee prostheses, S69
three-dimensional magnetic resonance imaging and, 361

Quadricepsplasty
for stiff and ankylosed knee, 1

Radiographic assessment
in protrusio acetabuli, 347
three-dimensional, 353
Radiolucent lines
and knee arthroplasty alignment, S55
Resurfacing
patella, and knee arthroplasty, S81
Retroversion
humeral prosthesis in shoulder arthroplasty, 277
Revision arthroplasty, hip
clinical results, 297
survivorship analysis, 311
Roentgen stereophotogrammetric analysis
in micromotion and bone-cement interface histology, 303
Rotator cuff
and shoulder arthroplasty for rheumatoid arthritis, 105

Screw fixation
and bone grafting for angular deformity in knee arthroplasty, 151
Shoulder arthroplasty
heterotopic bone formation following, 99
humeral prosthesis retroversion, 277
in rheumatoid arthritis, 91, 105
Silicone implant arthroplasty
basal joint of thumb, 65
Soft tissue lesion
and heterotopic bone formation following shoulder arthroplasty, 99
Stem stiffness, prosthetic
effects of femoral bone strain, 173
Stiff knee
arthroplasty for, 1
Strain gauge
in proximal femoral strain analysis, 335
Stress distribution
in ulna following hinged elbow arthroplasty, 163
Supracondylar fracture
of femur following knee arthroplasty, 289
Survival analysis
failure pattern after revision hip arthroplasty, 311
posterior cruciate condylar knee prosthesis, 293

Tack fixation
of tibial bone grafts, 371
Thumb carpometacarpal fusion, 65
Thumb carpometacarpal joint arthroplasty, 65
Tibia
failed osteotomy and abrasian arthroplasty, S45
fenestrated metal backing fracture of, 27
osteotomy followed by knee arthroplasty, S11
and severe angular knee deformity, 151
stability and anchorage considerations for cementless component, 223
tack fixation of bone grafts, 371
Tissue growth
into porous knee components, S33

Ulna
stress distribution in, following arthroplasty, 163
Unicompartmental arthroplasty, S1

Warfarin
in pulmonary embolism prevention, 217
Wound healing
following knee arthroplasty, S23
